WORK EXPERIENCE

Software Engineer

Civica Resource Pvt Ltd

12/2019 - Present

Vadodara,India

Civica is well known company in Uk and Australia for working on government based projects.

Achievements/Tasks

- Designed and developed comprehensive HR and payroll systems with modules for people management, payroll processing, and time and attendance tracking.
- Leveraged SQL Server capabilities to create complex stored procedures, triggers, views, and user-defined functions, with an emphasis on high performance and error handling.
- Built and maintained web applications using ASP.NET Web Forms (master pages, user controls, validation controls), MVC (Razor view engine, models, partial views, layout views), and ASP.NET Core. Integrated web services and developed APIs for seamless data exchange.
- Coordinated effectively within cross-functional teams, supporting SCRUM/Agile methodology with a focus on meeting Sprint goals and delivering high-quality software.
- Developed and optimized LINQ queries and Lambda expressions in C# for efficient data manipulation within applications.
- Utilized Report Wizard, Report Builder, and Report Manager to develop, deploy, and manage reports tailored to business requirements.
